Comments

Little Billy is a delightful pup who has been placed with a first-time puppy walking family. He has settled well with the pet dog Monty and the two older boys living in the home. Walks at this stage are basic and leadwork is developing. He loves walking but not the wet and hates going out for a wee in the rain. We will work on this by lots of play in the wet. He is a little apprehensive of steps and again we will build his confidence on these. Overall a lovely pup who has a great, soft temperament.
